Scanning Your Assembly: Step 1

Assembly Tag

Any assembly a customer requests entered into the Hose Tracking System will arrive wrapped with a tag that will include the following Information:

- Test Date
- Serial Number
- QR Code that includes all of the assembly's detailed information (See Slide: Assembly Detail Information).

***The QR code can be scanned with the *JGB Enterprises Mobile Application* or a *QR Reader* of your choice.**

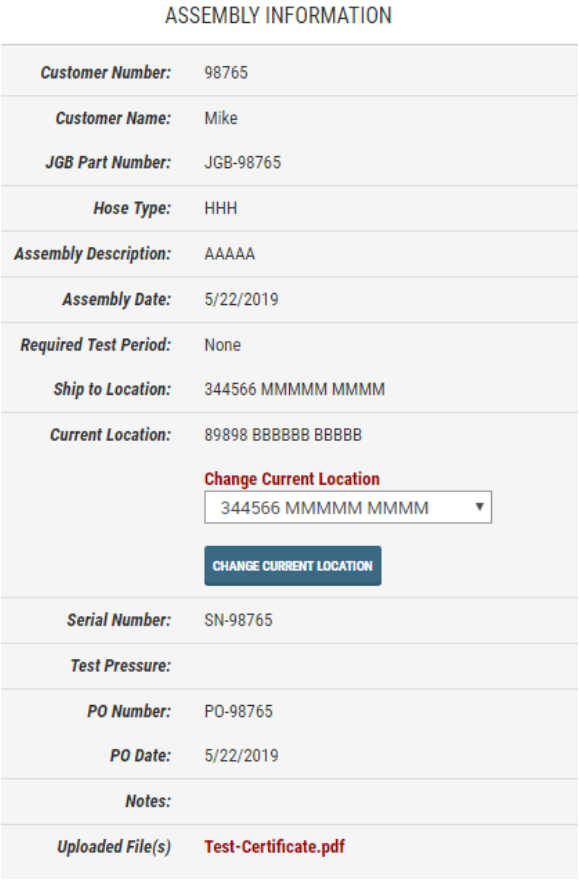
NOTE: Apple (iOS) users simply use the camera on your device as it is an automatic QR Scanner

Download JGB's mobile app from Google Play or the Apple App Store

Tag Image

Scanning Your Assembly: Step 2

When the QR Code is Scanned you will be asked to Login:



After you are logged in you can view/edit that specific assembly's digital data:
